Covering Letter

24th February 2022

Xcelerate Solutions

8405 Greensboro Dr Suite 930, McLean, VA 22102

Dear, Xcelerate Solutions

I am a student at Fairmont State University, majoring in Information Systems Management, expected to graduate in the spring of 2024. Therefore, I am pleased to be applying for the internship at Xcelerate Solutions. I was very excited to hear about this incredible opportunity from my professor, Mr. Jackson, at Fairmont State University.

As my resume indicates, I am familiar with web development, network/hardware support, and application development. Through an internship at Global Science Technologies, I have learned many skills that would help me be a great fit at Xcelerate Solutions. During this internship, I learned about enterprise security, Network engineering, and Software Development. Through these learning experiences, I now have an extensive background in Information Technology and how it is utilized in many businesses.

An internship at Xcelerate Solutions would be an excellent fit for my skills. Being an intern at Xcelerate Solutions would help me further my skills in information technology and gain more experience to advance my career. Xcelerate Solutions is a company that I would love to be a part of and work with this summer.

Enclosed for your consideration is my resume. I'd appreciate the opportunity to discuss my suitability and qualifications further with you on call or in person.

Sincerely,

Isaac Stankus
